for more than twenty years after the communist revolution in 1949
china and most of the western world had no diplomats in each others
capitals and no direct way to communicate then in july 1971 henry
kissinger arrived secretly in beijing on a mission which quickly led
to the reopening of relations between china and the west and changed
the course of post war history for the past forty years kissinger has
maintained close relations with successive generations of chinese
leaders and has probably been more intimately connected with china at
the highest level than any other western figure this book distils his
unique experience and long study of the middle kingdom examining china
s history from the classical era to the present day and explaining why
it has taken the extraordinary course that it has the book
concentrates on the decades since 1949 presenting brilliantly drawn
portraits of mao zedong zhou enlai deng xiaoping and other chinese
leaders and reproducing verbatim kissinger s conversations with each
of them but kissinger s eye rarely leaves the long continuum of
chinese history he describes the essence of china s approach to
diplomacy strategy and negotiation and the remarkable ways in which
communist era statesmen have drawn on methods honed over millennia at
the end of the book kissinger reflects on these attitudes for our own
era of economic interdependence and an uncertain future on china is
written with great authority complete accessibility and with many
wider reflections on statecraft and diplomacy distilled from years of
experience at a moment when the rest of the world is thinking about
china more than ever before this timely book offers insights that no
other can

book insights 1 the chinese have a paradox of their origins they
believe that they are eternal and that their civilization has no
beginning they believe that they have always been living in the same
stage of advancement as in the present day 2 chinese history is filled
with periods of civil war interregnum and chaos but each period of
disunity was viewed as an aberration and each new dynasty reached back
to the previous dynasty s principles of governance in order to
reestablish continuity 3 china was never required to deal with other
countries or civilizations of comparable size and sophistication the
chinese empire never attempted to conquer any foreign countries and
when the mongol dynasty collapsed the expeditions to japan were never
again attempted 4 the chinese were able to maintain their splendid
isolation and grew accustomed to the notion that china was unique
chinese elites grew accustomed to the idea that china was a great
civilization and not just another country
