this report presents health service utilization rates by economic
demographic characteristics health insurance coverage status health
status the health service utilization rates are measured by the
frequencies of visits to service providers such as doctors dentists
hospitals by whether or not people are taking prescription medicine
self reported health status is measured on a scale ranging from 1 to 5
where 1 is excellent 5 is poor this report uses data from the survey
of income program participation administered between oct 2001 jan 2002
in the sipp core survey respondents provide monthly information about
their health insurance status as well as other information for a 4
month period tables graphs

the atom contains energy beyond all imagination and president
eisenhower s plan was to benefit all of mankind once america
discovered the use of atomic energy for peaceful purposes some rather
extraordinary people leaped at the opportunity capitalize from this
new technology this is their story white elephants is about these
people and the hardships they encountered the story of how an amazing
technology became such a burden on our nation through the trials of
these not so ordinary men and women who built the white elephants we
call our nuclear power plants

first published in 1997 this volume is about the challenge of
introducing business originated concepts of quality assurance personal
social services are currently confronted with all over europe
undoubtedly the new orientation towards a more business like approach
in social welfare settings will raise professionalism client

orientation and controlling instead of mere inspection there is evidence however that the specificities of personal social services are not always taken into account if it comes to introducing market values and mechanisms due to this development it becomes essential to promote more adequate criteria for quality standards in the very field of personal social services the challenge is to maintain a certain standard of service provision while at the same time reconsidering the preconditions for defining quality this will imply the search for a consensus between allegedly diverging approaches i e between their different basic concepts aims and standards given the social and economic context within which these developments are taking place the focus of the contributions is on their critical assessment in different european countries an overview is given about national developments in the areas of care for older persons and other social services the contributors from austria belgium denmark finland germany italy the netherlands norway sweden and the uk look at how and by whom quality is defined and what challenges the actors of the traditionally mixed economy of personal social services are meeting empirical evidence about user involvement and satisfaction is given but also theoretical reasoning about the impact of business approaches on a public good thus the book tries to fill an important gap in practice research and policy making concerning personal social services and quality issues
