the result of a 30 year longitudinal study in racine wisconsin this monograph tracks the criminal behaviour of juveniles and the persistence or decline of that behaviour into adult life the author investigates the influence of the neighbourhood environment on the development of a criminal career and the utility of a criminal typology for the pur

originally published in 1989 this cross national study investigates the role and pattern of family life in fourteen countries in contemporary europe providing a wealth of information on european families it is a key source for anyone wishing to understand the changes in the family at that time the contributors argue that far from withering away the family remained a

very important social unit which continued to have considerable influence on other social institutions such as the state and the labour market the central theme is the interrelation between changes in production and working life on one hand and changes in family life and reproduction on the other the contributors focus on the pressures and contradictions produced by the division of functions between family and work and on problems which have arisen as a consequence of the sometimes incompatible and even conflicting demands of the two institutions they show that the evolution of the nuclear family model in europe had led to a great diversity of family patterns and conclude that the family in modern european societies still had a contribution to make which no other institution could provide

this book constitutes the proceedings of the 5th international conference on knowledge science engineering and management ksem 2011 held in irvine ca usa in december 2011 the 34 revised full papers presented together with 7 short papers were carefully reviewed and selected from numerous submissions

examines and compares various forms of government in industrialized countries

over a century ago tall grass prairie stretched over the most of what is now iowa illinois southern minnesota northern missouri the dakotas nebraska kansas and oklahoma today only a few scattered patches remain the author traces the history of the prairie and examines grassland ecology

this book deals with women and socioeconomic change in twentieth century sweden the main focus is on how women s education and labor force participation have affected fertility over time although many perceive sweden as a country where men and women hav
